

## The Quick Chill Cool Off

---

Cool Off is a pocket-size natural cooling towelette infused with a citrus-ice scent of cooling herbs, moisturizing botanicals and essential oils – none of that annoying alcohol smell that comes with towelettes this size. Cool Off did the trick for our two *Outdoors NW* staffers, Greg and Kelly, after a hot July workout. After applying to their neck and arms, both were happy that the coolness lingered and refreshed them for about 20 minutes after application. Comes in boxes of 12 or 24. About \$6 for a box of 12.
