### Anthony's Fave Finds

When you are feeling hot and sweaty this summer, cool off with a nifty product called **Cool Off!** They are pocket-sized cooling towelettes that keep you feeling cool and refreshed long after you rubbed it against your skin. The secret is the ultra soft, cooling towelette that is infused with natural herbs, botanicals and essential oils. They make you smell good too. Cool Off is available at Duane Reade stores in New York or on-line.
